## PROFESSIONAL SUMMARY

---

Software Engineer (Frontend) with 3+ years of full-stack experience. Proficient in utilizing modern technologies and frameworks to craft responsive front-end interfaces seamlessly integrated with resilient back-end functionalities. Co-developer of an acclaimed open-source prototyping tool with 2.4k+ GitHub stars.

## SKILLS

---

**Languages & Concepts:** TypeScript, JavaScript, HTML, CSS, JSON, HTTP, GraphQL, REST APIs, CI/CD, OOP

**Frameworks & Libraries:** React.js, React Native, Next.js, Vue.js, Express.js, Redux.js, jQuery, Jest, Testing Library

**Tools & Technologies:** Node.js, Docker, Git, Vercel, Render, Netlify, Vite, Webpack, Shopify Plus

**UI / UX:** TailwindCSS, Daisy UI, Storybook, Bootstrap, Material UI, Radix UI, SASS

**Databases & Cloud:** SQL, NoSQL, PostgreSQL, MongoDB, Mongoose, Google Cloud (GCP), Amazon Web Services (AWS)

## PROFESSIONAL EXPERIENCE

---

<b>Droppps</b> <i>Software Engineer</i>	<b>Remote</b> <i>May 2022 - Present</i>
<ul style="list-style-type: none"><li>Transformed mockup designs into refined, production-ready components and layouts for new website features</li><li>Developed user interfaces that adhered to UI/UX best practices and utilized A/B testing, leading to a 13% uplift in conversion rates and a reduction in bounce rate</li><li>Facilitated the migration of 500k+ subscriptions to serverless product flows on Google Cloud Platform and Node.js</li><li>Leveraged REST/GraphQL APIs in Shopify to streamline product attribute management and product listing efficiency</li><li>Led website bug triage across cross-functional teams, utilizing troubleshooting, testing, and remediation techniques to enhance stability and reduce support ticket volumes by 34%</li><li>Revitalized site SEO with a series of strategies elevating keyword optimizations, restructuring the heading hierarchy, and crafting descriptive alt tags, resulting in a 29% increase in organic traffic and higher search engine rankings</li><li>Executed WCAG-compliant accessibility measures to protect against drive-by lawsuits and \$50k+ in expenses</li><li>Implemented automated front-end testing using Jest and React Testing Library, resulting in a 40% increase in code coverage and 25% reduction in production bugs</li></ul>	

<b>OverVue</b> <i>Software Engineer</i>	<b>Los Angeles, CA, USA</b> <i>September 2021 - May 2022</i>
<ul style="list-style-type: none"><li>Architected drag &amp; drop, adaptive resizing, and real-time updates in Vue, enhancing UX and platform efficiency by 16%</li><li>Spearheaded the creation of a duplication feature, integrating conditional Vuex state mutations and relational mapping, allowing users to reproduce consistent components, increasing development workflow by 19%</li><li>Orchestrated the development of a cross-platform desktop app utilizing Electron and Node.js for optimized I/O operations, resulting in a 21% increase in user retention</li></ul>	

## PROJECTS & OUTSIDE EXPERIENCE

---

<b>Pomoparty - Social Pomodoro App   TypeScript, React, Next, Node, PostgreSQL</b>	<i>March 2024 - Present</i>
<ul style="list-style-type: none"><li>Designed and implemented a Social Pomodoro App leveraging React's component-based architecture, powered by Next.js, to ensure swift load times, SEO enhancement, and server-side rendering capabilities</li><li>Integrated PostgreSQL for data storage, designing schemas for user profiles and activity logs, ensuring efficient querying</li><li>Pioneered seamless CI/CD pipeline by deploying app on Vercel for front-end hosting and Render for back-end services, ensuring scalable and reliable app performance; increased app loading speeds by 40% and reduced downtime by 25%</li></ul>	

<b>Portfolio - Personal Website   TypeScript, React, Next</b>	<i>August 2023 - Present</i>
<ul style="list-style-type: none"><li>Constructed a high-performance React SPA portfolio, incorporating Next.js to enhance speed and content delivery</li><li>Streamlined site deployment on Netlify, guaranteeing high availability and 29% reduction in page load times</li></ul>	

<b>Interview Hub - Interview Prep Platform   React, Node, Express, PostgreSQL</b>	<i>December 2020 - August 2021</i>
<ul style="list-style-type: none"><li>Built a web community platform with the PERN stack for users to share interview experiences, advice, and reviews</li><li>Enacted WebRTC API with Cloud Firestore for signaling, enabling video chat capabilities for mock interviews</li></ul>	

## EDUCATION

---

Codesmith

*Bootcamp, Software Engineering*

**California State University - Fullerton**

*Associate's, Computer Science*

## **LEADERSHIP ACTIVITIES**

---

### **Co-developer of OverVue**

An open-source prototyping tool tailored for Vue applications that revolutionizes app conceptualization and development

### **Featured Speaker at SingleSprout's Tech Talk Series**

Topic: "Continuous Integration/Continuous Delivery (CI/CD), Software Development Life Cycle (SDLC), & DevOps"
